

Project Status report

Name:	Simran Brar
Community (UN SD goal):	# 6 – Clean Water and Salination
MVP #	2
Sprint cycle dates:	Nov. 17 rd – Dec. 8 th 2023

Project Name	Earth Wells
Blurb	I would like to create a forum based community that can come together and share ideas and knowledge on water filters and techniques. It will be a place where experts can share applicable methods of research breakthroughs, and users can work together to adapt solutions to their needs and geographical areas. Including material specific features.
For Week Ending	December 8 th , 2023
Project Status	Green
Status Description	Everything is on track all features planned for this sprint will be finished and the project will be in MVP #3 so it will be usable and useful to the users.

Activities—During the past sprint cycle

Finished:
Post Tagging
Material Tags and details
Sort by material and Tag
Like/ dislike Posts
UI Design
Improved Material Details
Authentication

Project Issues

There is a small issue that I was encountering at the time of writing this status report, there is a small bug where if I click a link it does not open the page, it is stuck in loading, but since the link works properly on other pages I am sure after some debugging the issue will be resolved.

Project Changes

There haven't been any major changes since Scrum #2, I did change the colours and UI design overall of the website to be more cohesive. Overall the features have remained consistent since the last scrum.

Activities—Planned for Next Week

1. Project Presentation
2. Code Clean up
3. Project Report Out

4. Project Commercial

Reflection

Do you feel "on track"?

Yes, I do feel in track, I feel like I have enough time to finish all of the project wrap up deliverables in time for the deadline.

What progress do you particularly feel good (great) about?

I feel really good about the materials features and the authentication, I was a bit apprehensive about getting it work but I did in the end.

What barriers (if any) do you feel is/are a current impediment to success?

Currently there are no barriers, maybe if I had something come up a little bit more time to complete the report but everything is on track currently.

What help (if any) do you require to move positively forward?

Maybe a guide or example of the report out would be nice, I don't know what's exactly expected so I would feel more confident in my report if I did have the example or guide I would feel more comfortable.

What questions or concerns do you have (if any)?

I do not have any questions as of now.
